FOR QUALITY SEEKERS

Our company Tuna Plastik aims to meet customer needs by transforming its experience in the plastic industry since 1985 into a corporate structure. We produce as a company with a quality understanding that increases the product range according to the needs of agricultural, industrial and livestock products.

Our highly qualified engineering and design departments design our injection molds and final products with high precision. We produce as a company with a quality understanding that increases the product range according to the needs of agricultural, industrial and livestock products.

We work with high devotion and precision in art to reach real quality. Our goal is not to be a brand, but to provide endless satisfaction and maintain trust in us.

And we want to say briefly:

We do not consume, we always produce for those who seek quality.

- 
- A red wheelbarrow with a silver metal frame and a single large black rubber wheel is positioned on a paved path in a park. The wheelbarrow is filled with a mix of red, orange, and brown autumn leaves. The path is lined with trees that have yellow and orange foliage, and a wooden bench is visible on the left. The scene is captured in a warm, golden light, suggesting late afternoon or early morning. A semi-transparent orange box with a dashed white border is overlaid on the upper part of the image, containing a list of product features.

- 
- A wooden-handled orange shovel is stuck upright in a field of young green plants. The shovel's head is partially buried in the dark soil. The background shows a vast field of similar young plants stretching towards a horizon under a bright blue sky with wispy white clouds. An orange text box with a dashed white border is positioned in the upper left quadrant, containing three bullet points.
- Produced from high quality raw materials with a special formulation.
 - With its wide structure, can be used in many different fields and purposes.
 - It is generally used for all carrying purposes in agriculture, horticulture, gardening, livestock and construction fields.
